Chiricahua

727 354 There is no evidence that conventional morality is totally discarded at this time, but there are suggestions that more freedom than usual is allowed:

> The dancing may go on for two, three, or four days. There is much feasting. Some people are eating, others are dancing. There are many marriages during this period. The Chiricahua, when they were captured and taken to Mexico, noticed that, when the Mexican people had a big victory, they always celebrated by dancing and marrying and having a good time. To get even with them, the Chiricahua turn their victories into a celebration and a dancing and marrying time. Many young men take advantage of the occasion.

727 961 Thoughts of death are not permitted to interfere with the happy mood: "Dead warriors are not mentioned in the songs, and the deaths are in no way formally announced. When the war party returns, the members state the news of the casualties privately." There is no general purifying rite for those who have come in contact with corpses during the fighting. The use by some of "ghost medicine" to stave off evil effects is "an individual matter; they don't do it in a bunch."

462 222 THE GATHERING AND UTILIZATION OF WILD FOOD PLANTS

The responsibility of exploiting the wild-plant resources of the region falls to the women:

> While the man is hunting, the woman gets up before sunrise, builds the fire if the man hasn't already done so, and cooks the morning meal, using meat if there is some, vegetables if not. Then she goes out to gather seeds or plants, leaving the small children with another woman. She gathers yucca fruit, piñon nuts, or whatever is in season and carries it all home to prepare.

[512]

Gathering, preparing, and storing fruits and vegetables provide a continual round of labor as the women follow the natural harvests:

> In spring they go out for mescal. They keep going for it for some time. They get plenty of it and store it up. By the time that is done they can go out after the first acorns and bring them in and store them in bags. Then the yucca fruit and the sumac berries and other things are ready.

[251]

821 805 The preoccupation with the growth of wild plants is reflected in the attitude toward the seasons and in the names of the principal time periods. Besides the four seasons, six time periods, beginning with the first signs of spring, divide the year. Their
